MEDIA RELEASE

21 October 2008

Majority of IOOF products now have QROPS status

IOOF has increased the number of products with Qualifying Regulated Overseas Pension Scheme (QROPS) status from 2 to 12 products.

This means the UK tax authorities have granted the majority of IOOF super products QROPS status.

IOOF Head of Product & Marketing Nick Everingham says a member of IOOF can make a UK pension transfer into one of the products with QROPS status without the UK tax consequences.

"We didn't want to restrict the IOOF products that people could transfer their UK pension funds into, so we now have QROPS status for the majority of our products," he said.

Below is a list of the IOOF products that can now receive transfers from UK pension funds.

| Superannuation products | QROPS reference number |
|---|------------------------|
| LifeTrack Corporate Superannuation | 502146 |
| LifeTrack Employer Superannuation | 502149 |
| LifeTrack Personal Superannuation | 502148 |
| Pursuit Core Personal Superannuation | 502152 |
| Pursuit Select Personal Superannuation | 501229 |
| IOOF Portfolio Services Corporate Superannuation | 502147 |
| IOOF Portfolio Services Employer Superannuation | 502145 |
| IOOF Portfolio Service Personal Superannuation | 500538 |
| Bendigo Financial Solutions Personal Superannuation | 502153 |
| Financial Partnership Employer Superannuation | 502154 |
| Financial Partnership Personal Superannuation | 502150 |
| Individuum Superannuation | 502151 |

**IOOF Portfolio Service Personal Superannuation and Pursuit Select Personal Superannuation already had QROPS status.*
