Important information

This Product Disclosure Statement (PDS) is a summary of significant information and contains a number of references to important information (each of which forms part of this PDS) and persons should consider that information before making a decision about the Fund.

The information provided in this PDS is general information only and does not take into account your individual objectives, financial situation, needs or circumstances. You should therefore assess whether the information is appropriate for you and obtain financial advice tailored to you having regard to your individual objectives, financial situation, needs and circumstances.

This PDS can only be used by investors receiving it (electronically or otherwise) in Australia. This PDS is not an offer to any person or any place in which it is unlawful to make such an offer. Units in the Fund have not been, and will not be, registered under the U.S. Securities Act of 1933 or the securities laws of any of the states of the United States. The Fund is not and will not be registered as an investment company under the U.S. Investment Company Act of 1940. Investment in units of the Fund by or on behalf of U.S. persons is not permitted. Units in the Fund may not at any time be offered, sold, transferred or delivered within the United States or to, or for the account or benefit of, a U.S. person. Any issue, sale or transfer in violation of this restriction will not be binding upon the Fund and may constitute a violation of U.S. law.

If any part of this PDS is established to be invalid or unenforceable under the law, it is excluded so that it does not in any way affect the validity or enforceability of the remaining parts.

The Responsible Entity can change any terms and conditions of the offer contained in this PDS at any time. We reserve the right to outsource any or all investment, management and administration functions, including to related parties, without notice to investors.

Incorporation by Reference

The Corporations Act 2001 (Cth) (**Corporations Act**) allows us to provide certain information to you separately to this PDS. Where you see references to “Additional information incorporated by reference” additional information concerning the topic has been incorporated by reference and forms part of the PDS. This information can be found in the BlackRock Additional Fund Information No. 1 document, available at www.blackrock.com.au/individual/funds-information/offer-documents. You should read this information before making an important decision. This material may change between the time when you read this PDS and when you acquire the product. This information is available to you free of charge upon request in paper format by contacting the BlackRock Client Services Centre.

Information subject to change

Information in this PDS, as well as the terms and features of the Fund, is subject to change from time to time. We will notify you of any material changes or other significant events that affect the information in this PDS in accordance with our obligations under the Corporations Act.

Updated information that is not materially adverse can be obtained from our website at www.blackrock.com/au. A paper copy of any updated information will be given, or an electronic copy made available, free of charge upon request.

Where the Fund is subject to the continuous disclosure requirements of the Corporations Act, we will satisfy our obligations by disclosing material information regarding the Fund on our website at www.blackrock.com/au. A paper copy of this material is available free of charge upon request.

Annual report

A copy of the audited annual financial report of the Fund is generally available by the end of September from us or upon request from your Investor Directed Portfolio Service (**IDPS**), superannuation fund or master trust operator. The audited annual financial report will be made available on our website at www.blackrock.com/au. You may also elect to receive a hard copy of the report by contacting our Client Services Team on the telephone number shown on the right of this page.

Investing through an IDPS, superannuation fund or master trust

If you have invested through an IDPS, superannuation fund or master trust, you can use this PDS for information purposes; however, if you wish to make any change to your investment you should contact the operator of such service and complete their required documentation. The operator of such service may process unitholder transactions and requests in accordance with processes that are different to those set out in this document.

1. About BlackRock Investment Management (Australia) Limited

BlackRock Investment Management (Australia) Limited, ABN 13 006 165 975 (referred to in this PDS as **BlackRock, Responsible Entity, Manager, we, our** or **us**) is the responsible entity and the issuer of units in the BlackRock Advantage International Equity Fund (**Fund**).

BlackRock is a wholly owned subsidiary of BlackRock, Inc.® (**BlackRock Inc**) but is not guaranteed by BlackRock Inc, or any BlackRock Inc subsidiary or associated entity (the **BlackRock Group**). Neither BlackRock nor any member of the BlackRock Group guarantees the success of the Fund, the achievement of the investment objective, or the repayment of capital or particular rates of return on investment or capital. An investor in the Fund could lose all or a substantial part of their investment. In particular, the performance of the Fund will depend on the performance and market value of the assets held by the Fund.

We reserve the right to outsource any or all investment, management and administration functions, including to related parties, without notice to investors.

2. How the BlackRock Advantage International Equity Fund works

2.1 The interests that members acquire

The Fund is structured as a unitised registered managed investment scheme. When you invest in the Fund, you are allocated a number of units. Each of these units represents an equal share in the net assets of the Fund. As a result, each unit has a dollar value or “unit price”. The unit price will vary as the market value of assets in the Fund rises or falls.

2.2 Minimum investment amounts

When investing in the Fund you generally need a minimum amount of \$50,000 or such other amount as we may determine from time to time. There is no minimum investment for subsequent applications. While there is no minimum redemption amount, we generally require a minimum balance in your Fund account of \$50,000.

2.3 How investors can increase or decrease their investment

Investors can increase or decrease their investment by acquiring units (refer to section 8.1 of this PDS titled “How to invest”) or redeeming all or part of their investment (refer to section 2.4 of this PDS titled “How to redeem your investment”).

2.4 How to redeem your investment

Redemption requests can be made in writing (including by facsimile). You will normally be able to redeem from the Fund on any **Business Day**, being a day other than a Saturday or Sunday on which banks are open for general banking business in Sydney (Australia) and New York (USA). A list of public holidays affecting the Fund is available on our website at www.blackrock.com/au.

Investor transaction requests are required to be received by 3.00 pm (Sydney time) on any Business Day (**Transaction Cut-off Time**). Transaction requests received before this time will generally be executed on the next Business Day (**Trade Date**). Investor transaction requests received after this time or on a day when the Fund is unavailable for transactions will generally be treated as having been received the following Business Day.

Following receipt of a redemption request, we will deposit redemption proceeds into your nominated Australian bank account, generally within five Business Days of our having received the redemption request, although we are allowed longer periods under the Fund’s constitution.

In some circumstances, such as when there is a freeze on withdrawals, investors may not be able to withdraw from the Fund within the usual period upon request.

2.5 Frequency of distributions and how they are calculated

If you hold units in the Fund at the close of business on the last day of a distribution period, you are entitled to participate in the distributable income of the Fund. Any income you receive from your investments will be in the form of distributions. Your distribution may include interest, dividends, other income and realised gains. Distributions are not guaranteed and there may be periods for which distributions are higher or lower than expected.

Distributions (if any) are generally determined at the end of June and December each year. Distributions (if any) are usually paid within 21 Business Days of the end of the distribution period.

3. Benefits of investing in the BlackRock Advantage International Equity Fund

BlackRock Expertise. The portfolio of stocks to which the Fund is exposed is managed by BlackRock’s Systematic Active Equity team. The team consists of highly qualified and experienced portfolio managers, strategists and researchers located in the United States,

Additional information incorporated by reference

Europe and Asia Pacific.

Diversification. In contrast to a direct investment in a single company, the Fund provides broad exposure to the international developed stock market.

Proven Track Record. The Systematic Active Equity team uses a proven, risk-controlled systematic process that is constantly being

Additional information incorporated by reference

You should read the information about the other features and benefits of the Fund before making an important decision. This material may change between the time when you read this PDS and when you acquire the product. Go to section 3 of the document titled “BlackRock Additional Fund Information No. 1”, which is available from our website at www.blackrock.com/au/individual/funds-information/offer-documents.

improved, to maximise its potential to deliver competitive returns to investors.

4. Risks of managed investment schemes

All investments carry risk. Different strategies may carry different levels of risk, depending on the assets that make up the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk.

Returns are not guaranteed. Future returns may differ from past returns and investors may lose some or all of their investment.

The appropriate level of risk for each investor will vary depending on a range of factors including age, investment time frames, where other parts of the investor's wealth is invested and the investor's risk tolerance.

The specific investment risks of investing in the Fund include:

Derivative risk. The Fund may be exposed to derivative securities. The use of derivatives expose a fund to different risks as opposed to investing directly in a security. For example, derivatives can cause a fund to make greater gains or incur greater losses than the gains and losses of the underlying security in relation to which the derivative derives its value.

Derivative transactions may be subject to the risk that a counterparty to the transaction will wholly or partially fail to perform their contractual obligations under the arrangement (including failing to meet collateral requirements under the arrangement). Additionally, OTC markets are not guaranteed by an exchange or clearing corporation and generally do not require payment of margin. To the extent that a fund has unrealised gains in such instruments or has deposited collateral with its counterparty that fund is at risk that its counterparty will become bankrupt or otherwise fail to honour its obligations. Derivative transactions may also expose a fund to a risk of potential illiquidity if the derivative instrument is difficult to purchase or sell.

The BlackRock Group attempts to minimise these risks by engaging in derivative transactions only with financial institutions that have substantial capital or that have provided a third-party guarantee or other credit enhancement.

Equity security risk. Equity securities are subject to changes in value, and their values may be more volatile than those of other asset classes. Dividend payments from shares may also vary over time.

Foreign investment risk. Exposure to securities or derivative instruments issued in foreign markets may include certain risks associated with:

- ▶ differences in trading, settlement and clearing procedures that may restrict trading (as a result of suspensions or daily quotas), increase default or market operational risks or require securities to be held on a beneficial basis via a depository nominee;
- ▶ currency risk, the risk that foreign currencies change in value relative to the Australian dollar, which may affect a fund's investment returns. These movements may either add to or subtract from performance;
- ▶ countries may be subject to considerable degrees of market volatility, economic, political and social instability, which may reduce or preclude the ability to trade security exposures or negatively affect a security's value; and
- ▶ differences in accounting, financial reporting, taxation, legal, regulatory, liquidity and pricing practices that are subject to change and if so may adversely affect a fund.

Liquidity risk. The Fund may be exposed to securities with limited liquidity, which are in practice infrequently traded or for which typical daily volumes traded are small. It may not be possible to sell

such securities when it is desirable to do so or to realise what the manager perceives to be their fair value in the event of a sale. The Fund may also be exposed to other funds that may, in certain circumstances, limit or suspend redemptions rights. The general level of market liquidity also varies and may deteriorate. Such a deterioration may negatively impact the ability to trade fund securities and may negatively affect the price at which a trade is executed. These circumstances could impair a fund's ability to make distributions to a redeeming unit holder in a timely manner and a fund may need to consider suspending redemptions. The BlackRock Group aims to reduce these risks by understanding the liquidity characteristics of securities a fund is exposed to and plans trading so as to minimise the adverse consequences of low liquidity.

Underlying fund risk. The Fund may implement some or all of its investment strategy through an investment in an underlying fund. The Fund and underlying fund are managed as separate entities, with separate investment objectives and investment strategies. No guarantee can be given that the underlying fund will meet its investment objective, continue to be managed according to its current investment strategy or be open to investments in the future. Changes to the underlying fund may be made without unitholder approval. Should the underlying fund change its investment objective or investment strategy, we will review such changes with consideration to the investment objective and strategy of the Fund. Further, if the underlying fund were to be suspended, closed or terminated for any reason, the Fund would be exposed to those changes.

Other risks more generally associated with investing in a fund include:

Counterparty risk. Institutions, such as brokerage firms, banks, and broker-dealers, may enter into transactions with the manager of a fund in relation to the sale and purchase of assets or securities. Such institutions may also be issuers of the securities in which a fund invests. Bankruptcy, fraud, regulatory sanction or a refusal to complete a transaction at one of these institutions could significantly impair the operational capabilities or the capital position of a fund. While the BlackRock Group uses reasonable efforts to mitigate such risks, there can be no guarantee that transactions between such counterparties will always be completed in the manner contemplated by, and favourable to, the relevant fund.

Fund risk. The price of units in a fund and the income from them may go down as well as up. Investors may not get back their original investment. There can be no assurance that a fund will achieve its investment objective or that an investor will achieve profits or avoid losses, significant or otherwise. Capital return and income of a fund is based on the capital appreciation and income of the securities invested in, less expenses incurred. Fund returns may fluctuate in response to changes in such capital appreciation or income. The payment of distributions is at the discretion of the fund issuer, taking into account various factors and its own distribution policy. Distributions are not guaranteed and there may be periods for which distributions are higher or lower than expected. Investing in a fund may result in a different tax outcome than investing in securities directly. The application of tax laws and certain events occurring within a fund may result in you receiving some of your investment back as income in the form of a distribution. A fund will generally not be managed with consideration of the individual circumstances, including specific tax considerations, applicable to any single unitholder in the fund. Past performance is not indicative of future performance.

Conflicts of interest risk. Certain conflicts of interest may arise in the operation of a BlackRock Group fund. Fund structures may

involve members of the BlackRock Group acting in more than one capacity, while BlackRock Group funds may hold over-the counter derivative agreements where a member of the BlackRock Group is acting (in different capacities) on both sides of the agreement. BlackRock Group funds may be invested in by persons associated with BlackRock Group or by other funds and accounts managed by different members of the BlackRock Group. Investors in a fund may, in some instances, invest on different terms to each other, some of which may be more favourable than others. Each investor in a fund may act in a way which is adverse to the interests of other investors in that fund. Additionally, funds and accounts managed by different members of the BlackRock Group may act as a seed investor in a BlackRock Group fund, which may create a commercial opportunity for the BlackRock Group. For example, a seed investment may allow the BlackRock Group to establish a track record for a fund that can then be sold to other clients. Certain investment strategies of the BlackRock Group may conflict with each other and may affect the price and availability of securities in which to invest. Members of the BlackRock Group may also give advice or take action with respect to any of their clients, which may differ from the advice given or the timing or nature of any action taken with respect to the investments of other BlackRock Group funds or accounts.

While conflicts of interest may arise from time to time, the BlackRock Group has established policies and procedures in place to manage any such conflict, which includes ensuring transactions between BlackRock Group entities are conducted on an arm's length commercial basis.

Individual investment risk. Individual securities held by a fund can and do fall in value for many reasons. Both price and levels of income are subject to fluctuation. Returns from individual securities will vary and price movements can be volatile.

Market risk. Economic, technological, political or legislative conditions and even market sentiment can (and do) change and this can affect the value of the investments in a fund. The value of a fund will change with changes in the market value of the securities to which it is exposed.

Operational risk: The risk of loss resulting from inadequate or failed internal processes, people and systems, or from external events. Adverse impacts may arise internally through human error, technology or infrastructure changes, or through external events such as third party failures or crisis events. The BlackRock Group has procedures in place to manage these risks and, as much as possible, monitor the controls within these procedures to ensure operational risks are adequately managed.

Regulatory and business risk: Changes in corporate, taxation or other relevant laws, regulations or rules may adversely affect your investment. For example, such changes may adversely affect a fund's ability to execute certain investment strategies, which could have a material effect on performance. The laws affecting registered managed investment schemes may also change in the future.

5. How we invest your money

Investors should consider the likely investment return, the risk, and their investment timeframe when choosing a fund in which to invest. This Fund only offers a single investment option.

The Fund aims to outperform the MSCI World ex-Australia Net TR Index (unhedged in AUD) (**Benchmark**) by 2% p.a. over rolling 3-year periods (net of fees), while maintaining a similar level of investment risk to the Benchmark.

Our investment style is based on our belief that people, leveraged by technology, are central to the consistent achievement of our

clients' investment goals. A single, global investment philosophy unites all BlackRock systematic (quantitative) investment strategies. Knowledgeable investment people leveraging their skills through the extensive use of technology is a hallmark of our systematic investment approach.

We believe that a focus on total performance management is the best way to achieve superior investment results. Through total performance management, we aim to understand; measure; forecast; and manage the three dimensions of investment performance — return, risk and cost.

The Fund's research driven investment process utilises a combination of active stock selection strategies across international developed markets that aim for the best trade-off between returns, risk and costs. The investment ideas blend local investment insights, cross-border insights, macro-economic insights and short-term drivers of stock returns and are grouped into three broad areas:

- ▶ **Fundamentals.** Our disciplined approach to valuing each company focuses on buying stocks that are trading inexpensively relative to the intrinsic value of the business and also assesses earnings quality through a systematic and comprehensive analysis of reported financial statements and corporate activity that identifies companies which offer superior returns to shareholders, as well as those with a higher-than-average risk of disappointment;
- ▶ **Sentiment.** The behaviour and insight of other equity market participants, other companies and information from other financial markets can be a useful guide to expected share price performance. The activity and insight of sell-side analysts, hedge funds, company management and the performance of linked companies can be used to assess which stocks will outperform. Fast moving reversal and sentiment insights can capture the impact of liquidity and flows on stock. Some of this sentiment is captured via sophisticated analysis of unstructured data such as text; and
- ▶ **Themes.** Based on stock exposures to economic and market trends, thematic and cross-border signals position the portfolio towards certain industries, styles, countries and markets. Exporter versus domestic baskets are traded against changing macro information (for example growth, currencies, rates and monetary policy).

Investment risk is managed by diversifying across many countries and currencies, and by holding the stocks of a large number of companies within each country.

The Fund will not invest in companies that have significant business activities involving tobacco and those engaged in the production of controversial weapons and nuclear weapons.

To achieve its investment objective the Fund invests in the BlackRock International Alpha Tiles Fund (**Underlying Fund**), another fund managed by us that has the same investment strategy as the Fund. The Underlying Fund invests in the international developed market stocks that form the Benchmark.

Derivatives, such as futures, forwards and options can be used to manage risk and return. When derivative positions are established, they will always be backed by cash holdings and/or underlying assets. Derivative securities will not be used to gear the Fund or Underlying Fund.

The Fund and Underlying Fund may also hold a small allocation of cash (or cash equivalents that may include units in other BlackRock funds) for cash flow management purposes.

The Fund's investment strategy aims to remain fully exposed to the international developed stock market, with cash exposure being maintained to a minimum, which may be, where practicable, equitised using index futures.

While the constitution of the Fund allows the Responsible Entity to borrow, it is our intention that no borrowing arrangements will be entered into, other than temporary overdrafts, which may be used as a means of managing certain cash flows.

The Fund may be suitable for long-term investors seeking a broad exposure to the international stock market. The minimum suggested timeframe for holding investments in the Fund is five years. From an investor's perspective, the Fund is considered high risk. Generally, the risk level associated with the Fund is greater if the Fund is held for a period less than the minimum suggested timeframe described above.

Additional information incorporated by reference

You should read the information about how we invest your money, our consideration of labour standards or environmental, social or ethical issues, switching your investment and changes to the investment option, before making an important decision. This material may change between the time when you read this PDS and when you acquire the product. Go to section 5 of the document titled "BlackRock Additional Fund Information No. 1", which is available from our website at www.blackrock.com/au/individual/funds-information/offer-documents.

6. Fees and costs

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.

For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30 year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower contribution fees and management costs where applicable. Ask the fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC) website** (www.moneysmart.gov.au) has a managed funds fee calculator to help you check out different fee options.

6.1 Fee table and example

The table below shows fees and other costs that you may be charged. Unless otherwise indicated, fees are inclusive of Goods and Services Tax (GST), any applicable stamp duty and take into account expected reduced input tax credits in respect of the GST component of the fee.

Information in the fee table can be used to compare costs between different simple managed investment schemes. Fees and costs can be paid directly from your Fund account or deducted from investment returns.

Type of fee or cost	Amount
Fees when your money moves in or out of the Fund¹	
Establishment fee	Nil
Contribution fee	Nil
Withdrawal fee	Nil
Exit fee	Nil
Management costs	
The fees and costs for managing your investment.	
Management fee ²	0.50% p.a.
Indirect costs (estimated) ³	0.00% p.a.
Total management costs	0.50% p.a.

- Buy-sell spreads may apply when your money moves in or out of the Fund. Subject to law, these may be varied at any time without prior notice.
- Fee can be negotiated with certain "wholesale clients" Investors (as defined by the Corporations Act) in compliance with legal requirements and any applicable ASIC class orders.
- Certain amounts or figures used to calculate indirect costs may include estimates in circumstances where actual figures could not be obtained. Indirect costs are a reasonable estimate of certain costs incurred within the Fund or any underlying fund that reduce returns.

Additional fees may be paid to a financial advisor as negotiated between you and your adviser – refer to the Statement of Advice

which will be provided to you by your financial adviser which sets out the details of the fees.

6.2 Example of annual fees and costs

Additional information incorporated by reference

You should read the information about fees and costs before making an important decision. This material may change between the time when you read this PDS and when you acquire the product. Go to section 6 of the document titled "BlackRock Additional Fund Information No. 1", which is available from our website at www.blackrock.com/au/individual/funds-information/offer-documents.

The table below gives an example of how the fees and costs in the Fund can affect your investment over a one-year period. You should use this table to compare this product with other managed investment products.

Example of annual fees and costs

Balance of \$50,000 with a contribution of \$5,000 during year

Contribution Fees	Nil	For every additional \$5,000 you put in you will be charged \$0.
--------------------------	-----	--

PLUS

Management costs	0.50%	And, for every \$50,000 you have in the Fund you will be charged an estimated \$250 each year.
-------------------------	-------	--

EQUALS

Cost of the Fund¹	If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year you would be charged estimated costs of \$250. ² What it costs you will depend on the fees you negotiate.
-------------------------------------	--

- Costs include management fee and estimated indirect costs.
- Additional expenses may apply, for instance, you may incur a buy-sell spread when you move money in or out of the Fund.

Please note this is an example. The actual investment balance of an investor will vary and the actual fees we charge are based on the value of the Fund, which also fluctuates. Amounts assume a constant investment of \$50,000 throughout the year and do not take into account any additional contributions made during the year. Management costs will also be charged in relation to additional contributions.

There is a calculator provided by ASIC on its MoneySmart website (www.moneysmart.gov.au) which can be used to calculate the effect of fees and costs on Fund account balances.

6.3 Additional explanation of fees and costs

Can the fees and charges change?

All fees can change. The current fees applicable to your investment are set out in this PDS and although we have the power to change our fee structure without your consent, we have no present intention to do so. Fees may vary over time due to changes to the Fund, changing economic conditions or changes in regulation. We will provide investors 30 days' notice of any proposed increase to our fees and charges.

7. How managed investment schemes are taxed

Investing in a registered managed investment scheme is likely to have tax consequences and you are strongly advised to seek professional tax advice. Registered managed investment schemes generally do not pay tax on behalf of investors. However, BlackRock may be required to withhold tax from each distribution at the relevant withholding tax rates under certain circumstances. You are assessed for tax on any income and capital gains generated by the registered investment scheme to which you are entitled.

Additional information incorporated by reference

You should read the information about taxation before making an important decision. This material may change between the time when you read this PDS and when you acquire the product. Go to section 7 of the document titled “BlackRock Additional Fund Information No. 1”, which is available from our website at www.blackrock.com/au/individual/funds-information/offer-documents.

8. How to invest

8.1 How to invest

To make your initial investment complete and send to us (including by facsimile) the Fund’s Application Form that accompanies this PDS or is available from our website at www.blackrock.com/au or by calling our Client Services Centre (refer to page 2 of this PDS for contact details). You will normally be able to invest in the Fund on any Business Day. A list of public holidays affecting the Fund is available on our website at www.blackrock.com/au. We have absolute discretion to accept, reject, or limit any application request.

If you choose to send us your completed Fund Application Form by facsimile, you will need to send us your original Fund Application Form for our records.

Investor transaction requests are required to be received prior to the Transaction Cut-off Time. Transaction requests received before this time will generally be executed on the relevant Trade Date. Investor transaction requests received after this time or on a day when the Fund is unavailable for transactions will generally be treated as having been received the following Business Day.

Your investment amount can either be:

- ▶ deposited into the application bank account. **If you choose to deposit your investment amount in the application bank account, you must provide us with verification from your financial institution that the money has been banked;** or
- ▶ transferred via BPAY®*.

Investment details are outlined in the Fund’s Application Form.

In order for us to be able to process your investment, you must ensure that BlackRock receives cleared money in relation to the relevant Trade Date. You may also need to complete an Investor Identification Form (which follows the Fund Application Form) for the purpose of Anti-Money Laundering and Counter-Terrorism Financing legislation.

Refer to section 2.4 of this PDS titled “How to redeem your investment” for details of the Fund’s Business Day, Transaction Cut-off Time and Trade Date.

* © Registered to BPAY Pty Ltd ABN 69 079 137 518.

8.2 Do you have “cooling off” rights?

If you are not otherwise a “wholesale client” or “professional investor” (as defined in the Corporations Act) you have a 14-day cooling off period in which to decide if the investment is right for you. The 14-day cooling off period starts when your initial investment in the Fund is confirmed or the end of the fifth business day after the day on which units in the Fund are first issued, whichever is earlier.

If you would like to exercise your cooling off right, you must submit your request to us in writing (including by facsimile) and specifically state that you are exercising your cooling off right. If we receive your request by the Transaction Cut-off Time, your refund will generally be executed on the relevant Trade Date. Cooling off requests received after this time or on a day when the Fund is unavailable for transactions will generally be treated as having been received on the following Business Day. The amount of your refund will be reduced or increased for market movements in the Fund as well as any applicable transaction costs and less any non-refundable tax or duty paid or payable. Accordingly, depending upon the circumstances, the amount returned to you may be greater or less than the amount initially invested.

Refer to section 2.4 of this PDS titled “How to redeem your investment” for details of the Fund’s Business Day, Transaction Cut-off Time and Trade Date

8.3 Enquiries and complaints

If you have an enquiry or complaint, you can contact our Enquiries and Complaints Officer via our Client Services Centre. We have established procedures for dealing with enquiries and complaints. If you make a complaint to us, the complaint will be acknowledged and steps will be taken to investigate your concerns. A final response will be provided within 45 days in accordance with our obligations.

BlackRock is a member of the Australian Financial Complaints Authority (AFCA), an independent complaint resolution body. If your complaint is not addressed within 45 days from the date it was received, or you are not satisfied with our response, you may refer your complaint to AFCA. AFCA provides fair and independent financial services complaint resolution that is free to consumers. AFCA can be contacted by:

- ▶ Telephone: 1800 931 678 (free call)
- ▶ Mail: Australian Financial Complaints Authority, GPO Box 3, Melbourne VIC 3001
- ▶ Email: info@afca.org.au
- ▶ Website: www.afca.org.au.

For the hearing and speech impaired, AFCA can be contacted by either:

- ▶ National Relay Service: www.relayservice.com.au
- ▶ TTY/Voice Calls: 133 677 (local), or
- ▶ Speak & Listen: 1300 555 727 (local).
